

# COVID-19 Action Plan

## TeleHealth Services

Dear families,

We are informing every family of the ongoing measures taken by Core Therapy Services and The Loom School to ensure safety for our clients and staff. In consultation with Telehealth consultants and review of our current resources, we have decided to provide Telehealth services for both Core Therapy and The Loom School. This is in addition to our home-based and clinic-based services. Telehealth services will be available for: Applied Behavior Analysis (ABA) supervision and family guidance/training; Social Clubs; Psychotherapy; and Virtual Learning. We will be utilizing Microsoft's Teams platform and you will be provided additional information about how to access. Here us the direct link to the consent form:

<http://mycoretherapy.com/telemed-consent.html>

If you are interested in utilizing this option, please complete the *Telemedicine Consent Form*. This service is provided in addition to current schedules and we will update each family if any changes occur with our current plans.

Thanks always for working with us to ensure we are maintaining safety and quality services!

Katrina Todd, Director
